

## Notice to BB interested parties on the change in flow data reporting for Moomba to Adelaide Pipeline System

This notice advises BB interested parties that the following changes are proposed for reporting of the Moomba to Adelaide Pipeline System (MAP) flows from 17 September 2015.

The gas flows for MAP demand zone ID 550018 will remain as is: demand supplied through MAP system including all laterals and including the Adelaide demand zone.

The MAP flows for Moomba production zone ID 550017 will include deliveries to Moomba.

$$\text{Zone 550017} = \sum \text{MAP Receipts}(\text{Moomba} + \text{SWQP}) - \text{MAP deliveries to Moomba}$$

Positive flows reported against the Moomba production zone ID 550017 will indicate net gas flows from Moomba towards Adelaide.

Direction of flow for the Moomba zone will be reflected by movement of the arrow in the region indicated in the map below:

The following map illustrates the zones that the MAP flows will be reported against:
