

Bulletin Board Notice – Uncontracted Capacity Outlook (INT 929) – SWQP

Effective: 29/06/2018

SWQP Western haul un-contracted capacity (TRANC – Wallumbilla to Moomba) assumes Wallumbilla compression is required and is reported as the lower value of uncontracted western haul pipeline capacity or Wallumbilla compression capacity.

SWQP Eastern haul un-contracted capacity (REVC – Moomba to Wallumbilla) assumes Moomba compression is required and is reported as the lower value of uncontracted eastern haul pipeline capacity or Moomba compression capacity.

Uncontracted capacities may change depending on required receipt/delivery point combinations and further information can be found on APA's website at <https://www.apa.com.au/our-services/gas-transmission/east-coast-grid/south-west-queensland-pipeline/>
